ABOUT ME!

Dear Student,

The more I know about you, the better I can teach you. You are not just a student to me, but a whole person that I'd love to get to know. The questions below will help me learn about you, and help me meet your needs. If there are any that you feel are too private, you don't have to answer. This is all information that I *keep* private.

Who lives at home with you? (If you live in more than one home, please tell me about both homes.)

Tell me about your brothers and sisters (their ages, names, how you get along).

Do you get to see both your parents regularly? Explain:

If your family don't usually speak English at home, what language do they speak?

List the languages that you speak.

If you and your family have moved here from another country, please say where from.

If you have moved here from somewhere else, please say where and how long you have been here.

Write about any big changes you and your family have experienced lately (moving house, divorce, illness...something happy...)

Write a list of at least 10 things that make you happy
